

**NEW!**

## Technical Specifications

<b>Model:</b>	ComposerPro Optical Disc Duplicator
<b>Configurations:</b>	
CD-R System	Two 16x CD-R Recorders, Prassi® PrimoCD Pro Software
CD-R/DVD-R System	Two Pioneer DVR- A03 (General Purpose) Recorders, Prassi PrimoCD Pro and PrimoDVD Software
<b>Optional Printers:</b>	Signature IV CD Color Printer, SignaturePro CD Color Printer or Inscripta Thermal CD Printer by Primera Technology
<b>Minimum System Requirements:</b>	Pentium® II/III (or equivalent) at 450 MHz or higher, 128MB RAM, available PCI slot, bus mastering SCSI host adapter (AdvanSys ASB3940UA or Compatible), one free serial port, one free parallel printer port
<b>Disc Capacity:</b>	100 disc input and output
<b>Recordable Formats:</b>	CD: CD-R, CD-RW, CD-Audio (CD-DA), Video-CD, MP3 to CD-Audio, most other industry-standard CD formats DVD: DVD-R, DVD-RW; other formats to be added as they become standardized by the industry
<b>Operating Systems:</b>	Windows® 95/98/Me and Windows 2000
<b>Interface:</b>	
Robotic Control	Serial port
Printing	Parallel port (ECP)
Disc Image Data	SCSI
<b>Power Requirement:</b>	100-240 VAC, 50/60 Hz, 85 watts
Weight	14 lbs. (6.35 kg)
Dimensions	16.625"W x 12"H x 10.125"D (422mW x 328mmH x 257mmD)
<b>Certifications:</b>	
Emissions	FCC Class B
Safety	UL, UL-C, CE
<b>Warranty:</b>	One year return-to-depot

### Optional Printers:

SignaturePro CD Color Printer

Signature IV CD Color Printer

Inscripta Thermal CD Printer

ComposerPro is from Primera Technology, an industry-leading manufacturer of optical disc printing and duplication equipment. Its management is responsible for the design and manufacture of over one million thermal transfer, ink-jet and dot matrix printers. Primera Technology products are distributed worldwide in over 80 countries.

# Produce High Volumes of Discs Without the High Cost!

If you need to produce a lot of CD-Rs or DVD-Rs, look no further than the new ComposerPro from Primera Technology. It offers all the features, performance and dependability that has made Primera a leader in desktop CD/DVD duplication and printing.

Its 100-disc capacity and dual CD-R or DVD-R recorders let you produce up to 60 discs per hour – right on your own desktop. Add an optional Primera CD Color Printer and you'll be able to print directly onto the surface of discs for a highly professional and finished look.

## Simple Operation, Reliable Performance

ComposerPro is based upon the same easy to operate, reliable mechanism as Primera's best-selling Composer™ Optical Disc Duplicator. Once started, ComposerPro operates completely unattended. Simply place up to 100 blank discs at a time in the input bin. ComposerPro's integrated robotics will automatically load discs into the high-speed CD-R or combination DVD-R/CD-R recorders.

## Precision Robotic Control

Discs are transported to the dual CD-R or DVD-R recorders and optional printer by ComposerPro's advanced robotic arm. This precision mechanism picks each disc and puts it in the appropriate recording or printing station with placement accuracy better than 0.06 of an inch (1.5mm), assuring you of reliable, unattended operation for each and every job.

## Professional Software Included

ComposerPro comes complete with easy to learn and highly capable mastering and duplication software for CD-R, DVD-R or both, depending upon the model you purchase.

## Multiple Printing Options

Print text, graphics, logos and more directly onto the surface of your discs with an optional Primera ink-jet or thermal CD printer.

Printing and recording takes place simultaneously to maximize throughput. You'll quickly produce discs that not only are perfect digital copies, but also look like they were professionally silk-screened.

For printing, select the Signature® IV or SignaturePro® ink-jet CD printers for full-color text, graphics and photos at up to an incredible 2400 dpi print resolution. Or, you might prefer the Inscripta™ Thermal CD Printer. It prints one or two-color text and graphics that are waterproof and highly scratch-resistant at up to 600 dpi.

## Optional Pioneer® Combo DVD-R/CD-RW Drive

The combination DVD-R/CD-RW model, utilizing Pioneer's latest optical disc recording technology, is particularly versatile. Each drive is dual-purpose, able to record both General Purpose (GP) DVD-Rs as well as CD-R/CD-RWs. Now you'll be able to record either format without the need for expensive upgrades.

## The Price/Performance Leader

No matter what you need to duplicate – software, audio, music, video, data, photos, presentations and more – ComposerPro is your professional, high-volume desktop duplication solution, at a price that virtually any company can afford!
